

## TOHOKU EPCO. Procuring materials & equipment

Nuclear Power	Description and Specifications
Nuclear reactor-related machinery	Repair of related machinery and materials , and others
Turbine-related machinery	Repair of related machinery and materials , and others
Electric facilities-related machinery	Repair of related machinery and materials , and others
Instrumentation and control-relations machinery	Repair of related machinery and materials , and others
Fuel-related facilities	Repair of related machinery and materials , and others
Waste disposal treatment facilities	Repair of related machinery and materials , and others
Radioactive rays management facilities	Repair of related machinery and materials , and others
Others-related machinery	Industrial television , and others
