

## TOHOKU EPCO. Procuring materials & equipment

Thermal Power	Description and Specifications
Boiler	Repair of related machinery and materials , and others
Steam turbine	Repair of related machinery and materials , and others
Gas turbine	Repair of related machinery and materials , and others
Generator	Repair of related machinery and materials , and others
Fuels tank	Repair of related machinery and materials , and others
Feedwater treatment system	Repair of related machinery and materials , and others
Drainage system	Repair of related machinery and materials , and others
Coal conveyance system	Repair of related machinery and materials , and others
Electric precipitator system	Repair of related machinery and materials , and others
Desulfurizer	Repair of related machinery and materials , and others
Denitration system	Repair of related machinery and materials , and others
Ash treatment system	Repair of related machinery and materials , and others
