

## TOHOKU EPCO. Procuring materials & equipment

Hydroelectric Power	Description and Specifications
Hydroturbine	Hydroturbine , Modification and repair of hydroturbine , and others
Governor	Governor , Repair of hydraulic generator , and others
Generator	Hydraulic generator , Modification and repair of hydraulic generator , and others
Crane	Overhead crane , Repair of crane , and others
Oil pressure system	Oil pressure system , Repair of oil pressure system , and others
Inlet valve	Inlet valve , Repair of inlet valve , and others
Exciter	Static exciter , and others
Cooling water supply and drainage system	Cooling water supply and drainage system , Repair of cooling water supply and drainage system , and others
Gate	Steel slide gate , and others
Hoisting equipment	Spindle type , Wire rope type , and others
Trashrack rake	Simple trashrack rake of mobile type , Repair of trashrack rake , and others
Penstock	Penstock , Waterway pipe , and others
Water level indicator	Pressure type , Crystal type , Float type , and others
Screen	Steel ground type , and others
Meteorological observation system	Recording rain gauge , and others
Alarming device of discharge	Control station , Speaker controlled station , Siren controlled station , and others
Drain valve	Motor-driven type , Hand-operated type , and others
